

Present a Seminar on **Viscosity Measurement**

Calgary: October 17th, 2018

Courtyard Calgary Airport - 2500 48th Avenue NE, Calgary T3J 4V8

Who Should Attend:

- Q.C Managers / Supervisors
- R&D Managers / Supervisors
- Operators / Technicians
- Engineers / Scientists
- Product Managers
- Process / Plant Operators

Schedule: 8:15AM - 4:30PM

8:15 - 9:00 Arrival and continental breakfast

9:00 Seminar begins

12:00 -1:00 Lunch (included)

4:30 Seminar ends

Cost: \$315.00

Plus CA\$15.75 GST

Topics Covered:

- Rheology and viscosity - definitions
- Definition of viscosity terms
- Why fluids change their flow behavior and why you need to understand it
- Flow and viscosity curves
- Brookfield viscometers - principles of operation
- Viscometer selection considerations
- Latest available instruments and accessories
- How to perform a calibration check on your viscometer
- Brookfield methodology: sample preparation, taking readings
- Data interpretation: what viscosity data really means
- Viscometer care and maintenance
